MISSION LOG

T - 20Y	Full-stack foundations First software shipped. The craft years, learning every layer from database to browser.
T - 10Y	Code meets marketing Two disciplines, one operator. I stopped handing work over and started owning both ends.
T - 3Y	The AI-native pivot Agents and automation stopped being a feature I added. They became the product.
NOW	Schedra + Nebulink Schedra.io schedules content with AI. Nebulink automates workflows for real businesses.

CURRENTLY

schedra.io	Schedra.io is mine: it plans, generates and schedules content for people who post every day.
nebulink	Under Nebulink I wire agents into the tools a company already pays for.
